
Dreamhost setting??

Posted by kolcu - 2007/06/05 17:50

Hi my friend

Sory for my English.

This comp. is very very well. Its work cpanel good. but dreamhost account, i cant use it. Not work in dreamhost.

What errors are you getting in the dreamhost account? I will need more details to figure out what exactly is happening!

Thnk for help. I can make it :laugh:

Send Mail Configuration:

SMTP Server: mail.domainname.com(net..)

SMTP Port: 25

SMTP User: %u

SMTP Pass: %p

General:

Default Host: mail.domainname.com

Port: 143

Dreamhost config. B)
