Hi

I just tried JoomlaStart Installer demo 1.0.13 works perfect, but when i tried with 1.5 i get the following message

Package

succesfully downloaded to /home/b/betrakta/www/subdomain/test_15/Joomla_1.5_RC3-Full_Package.zip

Error : PCLZIP_ERR_BAD_FORMAT (-10) : Unable to find End of Central Dir Record signature

What can be the problem?

Regards/steve

The package was probably not downloaded fully, you should try and upload the archive package manually, then retry the Joomla.Start.php script, and select the appropriate Joomla package from the second drop down box on screen! Ovidiu
