
Updated version

Posted by oscar615 - 2008/02/05 23:59

I just found your script and it almost what I am looking for. DO you have a version for Joomla 1.5? I am new to Joomla and for myself I don't see any reason to do an earlier version of Joomla.

Thanks,
Robert

I updated the utility from the JoomlaCode download site, Joomla 1.5.0 should be available in the download list!

Regards, Ovidiu
