## Trial time limit

Hi

I put the trial version on a site ([www.quiltmuseum.org.uk](http://www.quiltmuseum.org.uk)), but have been struggling with a permissions issue for the script; the host requires specific permissions, which I am trying to sort out with them now (have a ticket in).

In the meantime, my 7 days has elapsed -- what will happen when I finally get the script to run -- will I get a backup I can test, or not?

Thanks for your help.

I suggest you recreate a new trial, but use your site ip this time instead of the domain name, you should be able to use another 7 days trial
