Hello!

Just want you to know this is a very handy component! I'll reserve my 5 star review for when you're finished. :cheer:

Thanks for the hard work!

Hello Admin ..

I am developing site using joomla 1.5. want to use webmail service . i found Roundcube is good solution for webmail .

Good to see that Roundcube component / extention for joomla 1.5 is under development.

Could you please tell probably when this component will release. so that i can wait for.

Thanks,  
Narendra

---

Hi there! The roundcube for Joomla component will only be developed for Joomla 1.6 onwards, it would be useless to make a 1.5 version at this point!

Regards, Ovidiu

---

That's great. We can wait for the Joomla 1.6 version.

Thanks.

WOW two years of saying your making a 1.5 component and now you say sorry your only doing it for 1.6, bringing false hopes to a community is not a way to keep ppl coming back for more. LOL:laugh: LOL:laugh: I will be leave it when i see it!!!

## Roundcube Integration for Joomla 1.6

Posted by vimalkumar - 2011/01/22 01:17

---

Hi there,

Are you working on the Joomla Roundcube Integration component? If yes, when can we expect the component to be released

Regards,

Vimalkumar
