
popup window with Flash

Posted by robot - 2009/12/07 00:03

Hi,

I want to load the auto popup window (flash content) when user enter our website. I have configured the popup.php but no luck. Is it the flash or another problem?

Website: <http://www3.hku.hk/literacy/>

Popup content: <http://www3.hku.hk/literacy/xmas09/xmas.html>

Many thank!

robot

The JPopup plugin is not compatible with Joomla 1.5 systems, only with the older 1.0.x version

Regards, Ovidiu

Thanks for your reply! Is there any other plugin (joomla 1.5) which can make the auto popup window when viewer enter the website? Please help!! :dry:

Many thanks!

Robot
