## Feed2Post and JCron

Posted by zoomlanski - 2010/01/13 00:38

---

First off - AWESOME!

Although I haven't had immediate success I'm plugging away at finding the best php script to run.

I use this Crons with Feed2Post. They are like Peanut Butter and Jelly. But with this Component it's like Icing on the Cake!

Thanks for developing this

Tim
