
Are you working on Roundcube for Joomla 1.6?

Posted by baijianpeng - 2010/07/07 23:28

I remember that you said you will make Roundcube for Joomla 1.6 component.

Now, Joomla 1.6 is in beta4 version, maybe soon will come RC version.

So I wonder if you are working on this Roundcube for Joomla 1.6 project? Or, is there really such a project?

Thanks.
